New comers at TC Afrique Abidjan team

Since June 2007, we are pleased to welcome two new members in TC AFRIQUE Abidjan team. These are:

- Miss Orroh KACOU, a new Quality Manager, replacing Serge OUE GUEI who does not make anymore party of the company.
- Mr Kouakou Stéphane MINAN, inside sales, to reinforce quotation works for our customers' satisfaction.

We wish them all the best.

Miss Orroh KACOU
 Quality and
 Communication Manager

Mr Kouakou
 Stéphane MINAN
 Inside sales

Our partner Bourdon-Haenni S.A.S. become BAUMER BOURDON-HAENNI S.A.S.

In order to be more effective and to offer a wide range of products to their customers, Bourdon-Haenni S.A.S. and Baumer groups has merged to become: BAUMER BOURDON-HAENNI S.A.S., a single entity.

The new company name and logo have been presented officially during Hanovre trade fair on 20th April 2007.

The two groups are known in the instrumentation field. The first, over 150 years, is a reliable supplier specialized in mechanical and electric pressure gauges and thermometers. The second is a specialist for sensors and detectors recognized as well as in the process industries, than in the automation market .

This merge doesn't change the partnership between TC Afrique and Bourdon-Haenni S.A.S.

So now we are BAUMER BOURDON-HAENNI S.A.S agent, stockist and distributor.

Diaphragm valve SISTO-10

After carrying in stock KSB AMRI Butterfly valve, we add Diaphragm valve, full bore, soft sealing, used for industrial applications, building services, power stations, biotechnology, sterile process engineering, food and pharmaceutical industry, drinking water and ultra pure water systems.

Special lining and coating (Plastics or elastomere) can be applied according to fluid specification. Sisto also manufacture diaphragms in several rubber qualities and fluoric plastics (PTFE, TFM)

This diaphragm support temperature from -30°C to +140°C and a nominal pressure up to ISO PN 20. For easier use of the valve we can also supply electrical and air actuators.

We are currently carrying in DN 20 up to DN 150.
